

Innovative solutions

The Procontrol is present in the domestic and international market with its proprietary, innovative products, systems and solutions. Their common characteristic is that not only the product, hardware or software, but also provide turnkey solutions that include:

- Need assessment
- Task analysis
- Consulting on compatible solutions
- Budget
- Design
- Development
- Production
- Place preparation
- Energy- and information network building
- Transportation
- Installation
- Calibration
- Documentation
- Training
- System supervising
- Maintenance, repair

Our innovative solutions:

RFID proximity and biometric access control and time attendance terminals, systems	Entrance gates, steel-, and glass fowl whirl-, pendant-, sliding gates ProxerGate® , ProxerPort®
Building supervision, - automation and distance supervision, systems. Hotel and hospital systems. ProxerLock® , ProxerStecker® , Proxernet®	<ul style="list-style-type: none"> • Measuring devices for Ethernet network and unique tasks. • Sensors, gauge taxes, wireless sensor networks • Industrial process leader (regulator controller) equipments IP Thermo®, IP Stecker®
Pay parking and automatically checked parking systems, ticket merchandise systems, payment and sales machines.	Vehicle supervision, - tracking, consumption checker and fleet management systems.
MEDI-CALL® Nurse caller, HI-CALL® , HI-GUARD® , PaniCall® Emergency caller	RHS® Remote Health Supervisor Systems

RF communication systems: PROXER®	Location, person- and object follower systems: RTLS (Real Time Location Systems)
Information systems: number-, text- and giant displays, intelligent towers, net kiosks, informative stations, GPS central clocksystems	Clienter - Client caller, client leader and client qualifier systems
Safety, anti-intrusion and anti-burn systems (alarm, sensor)	RFID and barcode logistic systems
Access-protection, permission and regulation systems, locks	Wellness spa-access and payment systems
Card systems: card producers and card printers Point collection and regular customer systems	IT and office technologic tools for unieq projects
Guiding systems: AudioGuide for museums	Managed key- and value storages: Keysafe, AutoSafe intelligent keycabinets
Video-entrancing and supervising system	Lighting technology
Solar cell powerhouse	Solar energy output monitoring system

Hotel Control Sytem
Szállodai épületfelügyeleti rendszer

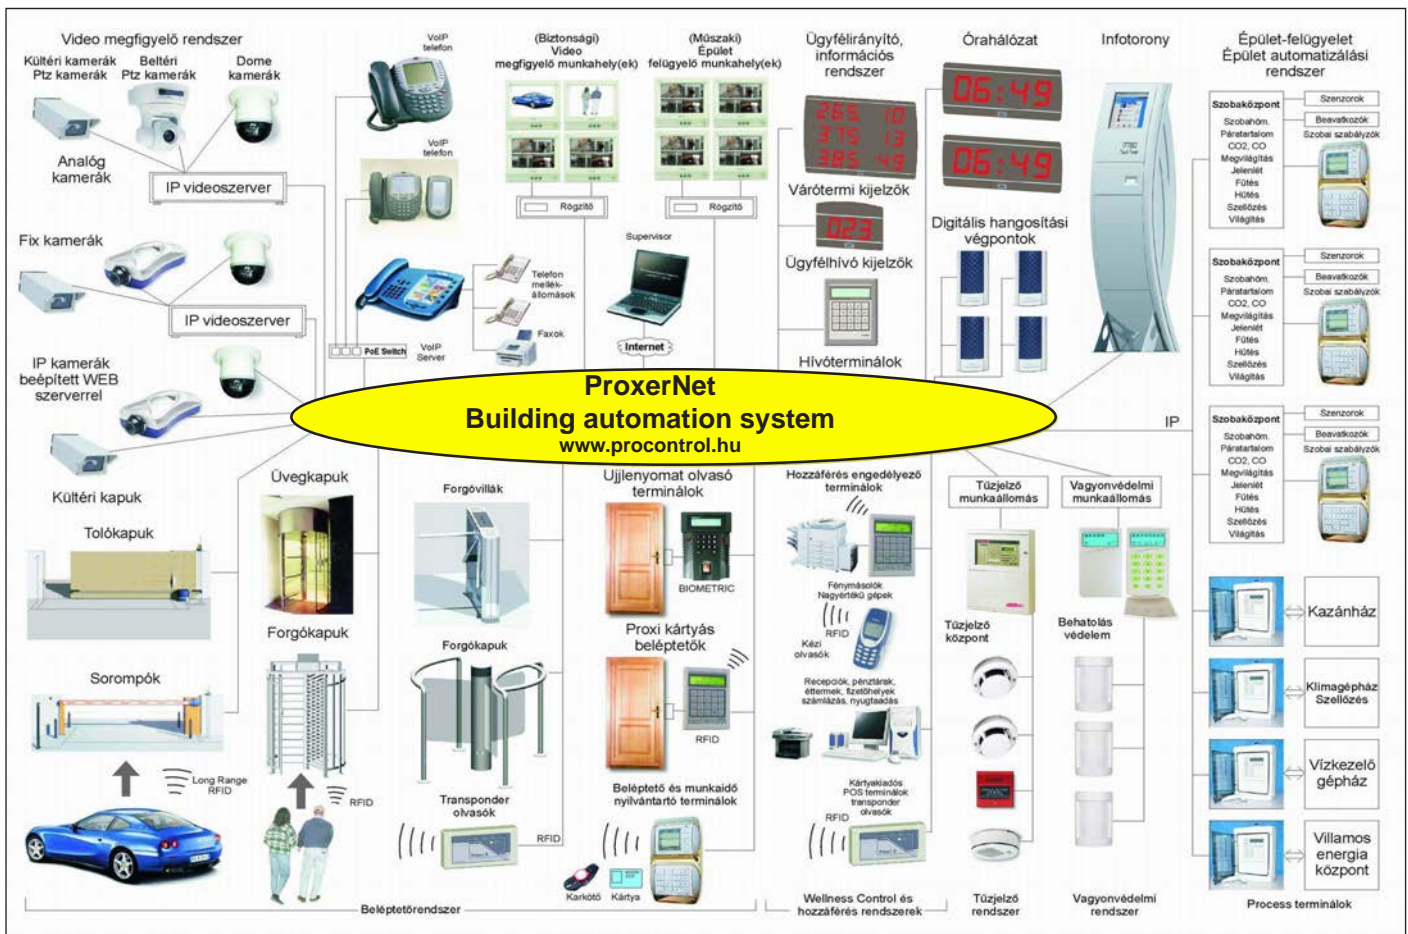

Wellness Control System
Wellness, fitness, fürdő, múzeum beléptető rendszer

Building automation systems

Summary graph

Systemtypes

- ProxerNet CPU 110 roomcenter: (building supervision placecontroller) for access, heat, cool, lighting, window opening, attendance and intrusion monitoring and managing
- Proxer RR 110: Room Regulator
- Proxer RDR: Non-contact chipcard access
- TS-05: Temperature sensor
- SDO Smart Door Opener: intelligent doorlock
- Supervision center: central PC workstations
- Hotel Control System software
- I. Front Office modul: reservation and registration
- II. Wellness Control modul: Spa access / cashless payment
- III. Building Control modul: Roomstatus
